

AMENDMENT TO THE SPECIFICATION

Please make the following amendment to the specification to correct a minor typographical error. No new matter has been added.

Replace the paragraph beginning at page 8, lines 10-17 with the following replacement paragraph:

---

The upper window is a camera viewer where an image transmitted by the camera server 102 is displayed. Further, it is possible to designate the direction, panning and ~~tiling~~ tilting of the camera by operating scroll bars arranged on the right and bottom of the transmitted image. A camera viewer of this type is explained in detail in Japanese Patent Application Laid Open No 10-42279.
